

Generated checks and direct judgment — matched 416-program cohort

Locally failing programs (n = 140)

Locally passing programs (n = 276)

Strict password integrity; exact-byte file checks. Shared researcher-authored fixtures; every repetition shown.
 Verifier uses default semantics; unavailable is not rejection. See caption for generation and oracle limits.
 Python Opus unavailable: frozen runner rejects stdout/getent patterns; not demonstrated semantic test failure.
